O'CONNELL WILL SERVE SIX MONTHS IN LOCAL JAIL

Judge Cochran sentences William O'Connell to serve six months in the Maysville Jail for Violating Espionage Act.

Federal Judge A. M. J. Cochran at Covington Friday passed sentence on a large number of persons who had been convicted in the recent session of the Federal Court for the Eastern district of Kentucky.

Among a large number of men sentenced was William O'Connell, Mason county man who was arrested several weeks ago on a charge of having violated the Federal Espionage Act when he is said to have advised a young man not to enlist in the United States army at the local army recruiting station.

O'Connell was under the influence of liquor at the time and said he remembered making no such remark and knew that had he been sober at the time he would not have made such a remark.

The prosecution offered the young soldier as witness against O'Connell who had no defense to offer except that he knew nothing of the incident and thought he was talking to an old friend in just a joking manner about enlisting.

Judge Cochran, in his decision, sentenced O'Connell to serve his six months time in the Mason county jail in this city. This is the first Federal prisoner assigned to the Maysville jail for several years.

DESERTER TURNED OVER TO OFFICIALS

Special Officer John Mitchell, of the government dam, went to Fort Thomas this morning having in his custody Alonzo Gerner, the negro arrested at the dam Friday and who later when taken before the Mason County Examination Board, confessed to being a deserter. Gerner will be turned over to the army officers and will be given a court martial trial.

Miss Marguerite Pogue has returned from a visit to relatives in Cincinnati and attending the Pogue-Barrett nuptials.

CINCINNATI'S MAYOR MAY MAKE ADDRESS AT BANQUET

Mayor John Galvin, of Cincinnati, has been invited to speak to the Business Men of Maysville Monday Evening.

It has become known that it will be absolutely impossible for Hon. Thomas D. Slattery, U. S. District Attorney, to address the Maysville businessmen at their banquet at Beechwood Park Monday evening when their great membership campaign for the Chamber of Commerce is launched and an invitation has been extended to Hon. John Galvin, mayor of Cincinnati to make the chief address.

Mayor Galvin has before expressed himself as being willing and anxious to address the business men of Maysville if the opportunity afforded itself at the proper time and it is felt that he will make every possible effort to be present at the big banquet Monday evening.

Interest in the membership drive continues to grow daily. The interest that is being displayed in the opening banquet for Monday evening is enough to assure all that the business men of Maysville will be solidly behind the Chamber of Commerce for another year. The local business men have learned the worth of the organization to them and to the city and they are anxious to see it go forward into the new year with vim and with a feeling that all Maysville business interests are consolidated behind it in making Maysville a better place to live and a better place to do business.

MANY ATTEND SMOKER

Quite a number of business men were present to attend the smoker given at the Chamber of Commerce Friday evening when the committee members who will canvass the city for members to the Chamber of Commerce, talked over plans for this big campaign.

Mr. and Mrs. A. H. Thompson, Miss Susan Thompson and Miss Catherine Pogue left Friday on a motor trip to Cincinnati. The party will return today.

Four hundred Cincinnati police are out on a strike and the home guards are doing police duty.

YANKS CONTINUE ADVANCE; FRENCH LAUNCH NEW ATTACK

Americans Press on Toward Metz While French Start New Drive on Allette Between Alsace and Vesle.

London, September 14 — French troops began a new attack at dawn this morning on both sides of the Allette river and between the Alsace and the Vesle river.

The attack of the French forces in the direction of the Forest of Voucy, at the southern end of the St. Goubaud massif, advanced to a distance of between one and two miles on an 11-mile front.

The attack was launched at 5 o'clock. One division at an early hour had taken 1,000 prisoners, making a total of 1,800 Germans captured on that front alone.

South of the Allette river the French captured Mont Deslages and the villages of Almont and Saucy. The French also reached the edge of the town of Vailly on the Aisne.

The advance of the French threatens to turn the flank of the German defensive positions on the Chemin des Dames, and it also endangers Laon.

With the Americans on the Metz front, September 14—Having defeated and routed the Germans at all points in what once was the famous St. Mihiel salient, America's victorious First Army forced the enemy today along a new line in some places 12 miles north of their old one.

Americans driving across the heights of the Meuse from the west end through the pocket seven miles to Vigneulles, where they met the other American forces, smashing in from the south, thus completing the closing of the sack.

Our front now runs through Nory, Jaunay, Nannettes, St. Benoit Hattenville, Hammonville and Herbenville. All the territory within the line is under control of the Americans.

The number of prisoners and guns taken as Pershing's troops swept on increased with great rapidity. All our objectives were attained according to schedule.

"We're going strong," was the report from a certain already famous division, regarding the progress of its attack shortly after the offensive opened.

From the start of the drive it was evident the prisoners would number thousands.

When 5000 to 7000 already had been counted, reports came into headquarters from all directions telling of groups of 200, 300 and 500 more on their way to the rear.

Eighteen hundred prisoners, including eight officers, were taken when Thiaucourt fell. Eighteen officers were included in another bag.

Numerous machine guns have been seized. One infantry detachment charged and captured an entire battery of field guns which were firing upon them.

ANOTHER CAR OF CEMENT ARRIVES

The second car load of cement for the concreting of the C. & O. depot grounds and street has arrived and contractor James Ireland will begin concreting in earnest in a few days. Up to the present time very little concreting has been done but enough cement is now on hand to warrant the contractor to proceed full speed ahead and he expects the rest of the cement within a short time.

HIGH LAND SALE WILL ATTRACT MANY

The sale of the George Mitchell farms in the Mt. Gilead neighborhood being partly in Mason and partly in Fleming county, will be held this afternoon and as this is one of the best farms in this section of the country, it is expected that there will be quite a number of people attend the sale.

HOARD ASSISTANT IS GETTING TRAINING

Fred Arn, Jr., who was appointed from the limited service class to assist the local Exemption Board as an assistant clerk, is now taking a special training at Camp Zachary Taylor and will return in time to assist the local board in its work on the new registrants.

KENTUCKIANS INJURED WHEN HOUSE COLLAPSES

James Bradley, prominent Georgetown, Ky., attorney, Edward Parker, horse dealer and William McKeever, chauffeur, also from Georgetown, were injured in Cincinnati this morning when a house at 708 Race street collapsed about 9 o'clock.

Mrs. W. H. Taubee and daughters and Mr. Harold Caplinger motored to Sharpburg Friday afternoon.

DR WILSON GOES TO AURORA, ILL.

Maysville Man Who Has Been Pastor in the North is Highly Praised in Church Paper.

The following handsome reference to one of our "Maysville boys" occurs in a letter from the Michigan contributor to the "Herald and Presbytery":

The First Church of Lansing, Mich., is going to lose its beloved pastor, Rev. Horace Andy Wilson, D. D., who, after twelve years of splendid service, has accepted a call to Aurora, Ill. Dr. Wilson has been remarkably successful in our capital city. He found less than three hundred members in the First Church twelve years ago. Now it has much more than doubled that membership. Last year the congregation gave over \$1,000 to home missions, and over \$500 to foreign missions. A new enterprise has also been developed into a vigorous church that will soon reach self-support. Dr. Wilson has not confined himself to his local church work. He has been active in all synodical affairs, chairman of the Every-member Plan Committee, and in many other lines of work. He is also state secretary of the Michigan Anti-Saloon League. His going will be a great loss to Michigan, but he will be a great gain to Illinois when he commences his work on September 22d. It is somewhat discouraging for those of us who have for years been trying to bring the Synod of Michigan to the place where we believe it belongs, to part company with such a genial friend and vigorous fellow worker as Dr. Wilson; but we shall expect big things of him.

MANY OFFERING THEIR SERVICES

It is understood that already quite a number local men and women have offered their services to the Council of National Defense in filling out the hundreds of blank questionnaires which must be filled for the men who registered on last Thursday. A meeting of these volunteers is being planned for Monday.

ARTIFICIAL RISE IS ON ITS WAY

Another artificial rise in the Ohio river is on its way and will soon reach Maysville carrying with it a large amount of coal released from the Kanawha coal fields. Several local merchants are hoping that some of their river coal which has been ordered for many months, will come down in this rise.

MASON WOMAN TALKS TO BRACKEN WOMEN

AUXILIARY MEETS

The Auxiliary to the Health League will meet Monday afternoon from 1 to 5 with Miss Casey to sew and make preparation for the Bazaar at the Tobacco and Corn Fair.

A meeting of the stock breeders who are interested in the big short horn sale to be held here this fall, was held here today and plans for the big sale are well under way. It is thought that this sale will attract many stock buyers to Maysville.

"Skitch" Howe, who since his going to Camp Zachary Taylor, has become Sergeant Howe, is spending a furlough with his relatives here and shaking hands with his many friends.

ALLEGED BRASS THIEF NEXT CRIMINAL CASE TO BE TRIED HERE

Jake Thorpe, Charged With Stealing Brass From the C. & O. Railway Company, Will Be Tried Next Week and Will Wind Up Criminal Docket.

There is but one more important criminal case awaiting trial this term of Circuit Court and that is the case against Jake Thorpe, who claims Portsmouth, Ohio, as his home and who is indicted on a charge of grand larceny for having stolen brass from the C. & O. railroad company.

Thorpe was arrested with his pal, William McGraw, at the corner of Front and Market streets on May 18, by Chief Ort and Officer P. Rynn as they came from a junk shop where they had sold a quantity of brass. They denied having stolen brass from the C. & O. railroad company but the officers started an investigation.

The police learned that these two men had hired a horse and wagon from a local livery stable on the pretense that they had some old rubber to haul and that they had gone to an East end landing where their skiff had been anchored and had secured there approximately 296 pounds of brass which had been sold to a local junk dealer. Later railroad men identified the brass as having been stolen from the railroad company.

Both men were held to the Grand Jury but on Sunday, May 28, McGraw escaped from the county jail when the turnkey opened the barred door to allow a friend to speak with McGraw. He has not since been located by the police and Joe Blazing, the man, who is said to have let him out the door, also made his get away and has not since been seen.

Thorpe will go on trial this week and although he denies he has stolen any brass from the railroad company, the officials think they have a good case against him that will send him to the state penitentiary on a grand larceny charge.

BUSINESS DEAL ADNOT TO BE CLOSED

It is understood that a big business deal of considerable importance is about to be closed in Maysville and may be closed some time today whereby one of our retail business houses will retire from business.

DOMESTIC SERVICE FOR PHYSI- CALLY DISQUALIFIED

Frankfort, Ky., September 14 — About 15 per cent. of the men sent to Louisville by local boards to be inducted into limited service for duty as clerks to the boards were retained by the army authorities for domestic service, Mr. Henry Rhodes said, on his return from Louisville, where he took command of his new force.

Domestic service men grade physically between general and limited service, and do not come within the purview of local boards.

The fact that so many men classified by local boards for limited service were taken over by the army caused considerable comment, as it was thought they were found physically fit for overseas duty and held.

THE HOME OF QUALITY CLOTHES

Everything for Complete Outfitting for Men

Present conditions in the clothing industry makes this season's showing of Hechinger's clothes particular noteworthy. It emphasizes the skilled merchandising ability of this organization for although there's a genuine scarcity of the finer qualities our stocks were never so complete. You couldn't wish for a more complete assortment of men's good clothes from which to choose.

They're bought right, and priced right.

New hats—in stiff and soft shapes. Good hats to accompany good clothes.

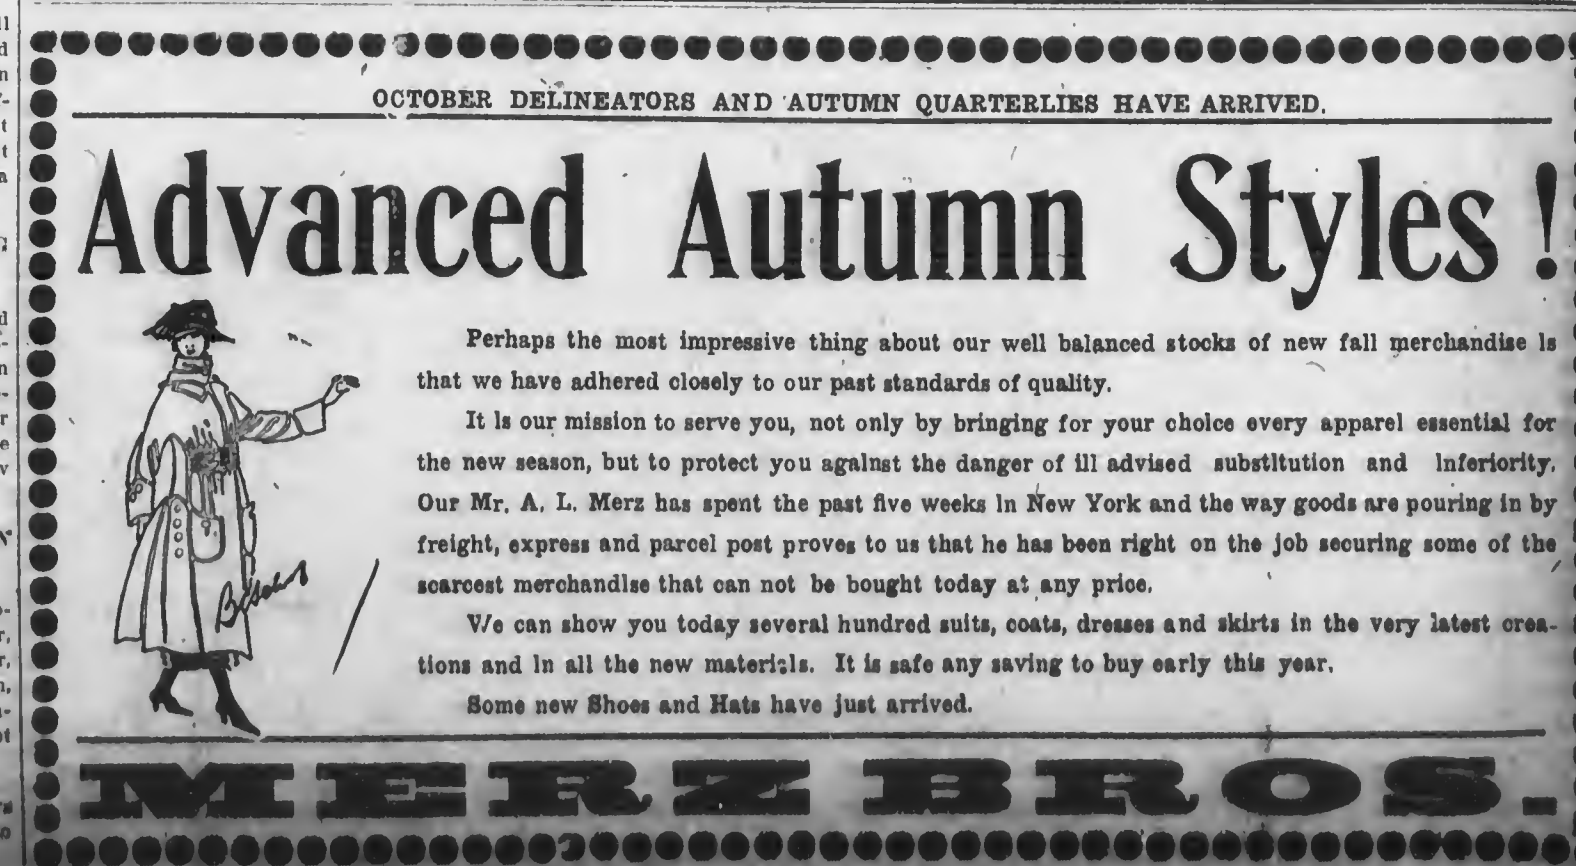

New shoes: Hanan, Nettleton and Walk-Over.

OCTOBER DELINEATORS AND AUTUMN QUARTERLIES HAVE ARRIVED.

Advanced Autumn Styles!

Perhaps the most impressive thing about our well balanced stocks of new fall merchandise is that we have adhered closely to our past standards of quality.

It is our mission to serve you, not only by bringing for your choice every apparel essential for the new season, but to protect you against the danger of ill advised substitution and inferiority. Our Mr. A. L. Merz has spent the past five weeks in New York and the way goods are pouring in by freight, express and parcel post proves to us that he has been right on the job securing some of the scarcest merchandise that can not be bought today at any price.

We can show you today several hundred suits, coats, dresses and skirts in the very latest creations and in all the new materials. It is safe any saving to buy early this year.

Some new Shoes and Hats have just arrived.

THEY WILL AND THEY WON'T

We meet a few strong-minded persons now and then who, in this age of shattered philosophies, theories and customs, still assert that "they will or they won't do this or that." No power on earth or in heaven can shake their belief that the affairs of the world must shape themselves to meet their views. They think, poor things, that life is going to slip back into its ancient grooves when the war is over; that business is going to be run on its former lines; that politics, society and religion are to resume their pristine aspects. If they do not do so of their own accord these purblind bigots mean to try to make them!

We are sorry for such people and we fear them. Any attempt to jam the brakes down too suddenly upon the swift, the mighty and the universal movement going on in the world today must result in disaster.

To disturb this movement is unworthy, and will prove, perhaps, a fatal skepticism. It is too big, too sweeping, too widespread, to be an error. One might as well distrust the movement of the Mississippi River, the Gulf Stream, the ocean tides or the planets! It is issuing from the very will of God, or, if you do not construe the universe in the terms of religion, it is springing out of the very heart of Nature. It is agitating every nation, it is bearing the race along upon its crest. It has a name—democracy. It has a mission—the emancipation of the human mind from its swaddling bands.

What, then, are the characteristics of this movement? The overthrow of autocratic governments, the opening of all spheres of effort and influence to woman, the elimination of drunkenness, the enfranchisement of labor, the reorganization of business and government upon a scientific basis, the exclusion of dogma from religion.

Does any man think he can sweep this oceanic wave back with his little broom? He would better get out of the way! It will minister to his future happiness to realize that such universal upheavals have some sort of Divine origin and mission, and that he must shape his individual affairs to their dictation. The man who refuses to reconcile himself, for example, to the permanent nationalization of such public utilities as the railroads, telegraph lines, coal mines and what not is more than likely to be broken by the revolving wheel of events. The man who determines to oppose and to fight the encroachments of wage earners upon the management of his business is doomed to defeat and heartache.

We stand upon the threshold of a new era. The titanic force of evolution is lifting us to a higher stage of being. That mysterious energy which has borne the race along over its rugged pathway, sometimes by means of the will of man and sometimes in spite of its opposition, still pushes us toward the unknown goal.

There have been some eddies and backsets in this cosmic stream of events which we could successfully oppose, but this is the current itself.—Cincinnati Enquirer.

AT THE GREAT DIVIDE

Edwin Markham, the poet, writes a tribute to a soldier who has fallen in battle. It is all beautiful, but it contains two little sentences that are worth thinking about. One is:

We all felt the force of his intellect, the solidity of his judgment; but we were moved even more by the blow of his spirit, by the fidelity of his friendship, by the sincerity of his devotion to the interests of his comrades.

That "glow of the spirit" was the transcendent quality. His intellect and judgment were praised, but the glow of his spirit was even greater than these. The personality is really the man and the spirit creates that. The other paragraph is:

He will not be forgotten by his comrades left behind; and we are certain that he has received a noble welcome from the high-hearted ones who gathered to meet him at the Great Divide! That is the thought that should fill the heart of every one who has a loved one that has fallen in the conflict. There will be many at the Great Divide to meet him. What a welcome there will be. Cheer up mother, sister, father—your soldier boy will not go into a strange country.

STUDY COURSE FOR STUDENTS IS ANNOUNCED

Course of Study in the Students' Army Training Corps Is Announced by the War Department.

The War Department authorizes the following:

The course of study for student-soldiers of the Students' Army Training Corps now being organized in the colleges of the country as an active branch of the Army, is announced as follows by the Committee on Education and special Training of the War Department:

In the curriculum of the Students' Army Training Corps, the average number of hours each week will be as follows: Subjects including practical and theoretical military instruction and physical training, 11 hours a week; nilled subjects including lectures, recitations, laboratory instruction and the preparation needed for such work, 42 hours a week.

These hours are set forth with reference to the normal course period. In the case of students who have had at least one year at an approved institution, during which they have specialized in studies which form part of the preparation program for Chemical Warfare, Medical Corps, Engineer Corps, the Ordnance Corps or other technical branches of the service, the Committee on Education may authorize a reduction in the hours of military training to not less than six hours a week. This is only in the event that additional number of hours be given to the study of technical subjects.

Ordinarily the allied subjects selected for the Students' Army Training Corps will be English, French, German, mathematics, physics, psychology, chemistry, biology, geology, geography, topography and map-making, meteorology, astronomy, hygiene, sanitation, descriptive geometry, law, military law and government. Permission may be given for the recognition of one other subject provided that it requires not more than three hours a week in lectures and recitations.

The presidents of the colleges which have been authorized as units of the S. A. T. C. were advised today that the Collegiate Section is confined to students graduated from standard, four-year secondary schools or students having the equivalent of such educational qualifications.

KAMERADS

Dispatches from New York the other day carried a story of a submarine having been rammed and captured by a merchant vessel. As the U-boat came to the surface the crew came piling out of the shell to the gundeck.

"Kamerad," they called as the merchant vessel passed on.

"To the bottom of the sea with you, you're no Kamerad of mine," the captain shouted and signaled for full speed ahead. Presumably they perished.

"There's something peculiarly appealing in this story. It's so different.

We've been hearing this "Kamerad" stuff for many moons. The Germans have been working it over time.

Every time a machine gun nest is raided and the operators are finally up against the prospect of being bayoneted after having done their mortal best to kill their attackers, they throw up their hands and yell "Kamerad!"

And nine times out of ten they get away with it.

It's the same game Germany has been playing with America ever since the opening gun was fired into Belgium. Every time we rooted up a bomb placed they professed innocence and friendship. Every time a munitions plant went up in smoke they expressed sympathy. In the Mexican plotting they entered denials. Always they have called "Kamerad," and up to the last minute it went. The bottom of the sea is white with the bones of the victims of this kamerad stuff.

And now they're calling "Kamerad" in another fashion. Now they want no territorial gains. Their last peace to offer, in the finality, simmered down to a settlement that would leave them all they had before the war, and considerable more.

This Kamerad business must go. Uncle Sam must handle Germany without gloves.

The Hunns are on the run this minute. Their morale is shaken. Their army fast weakening. Their man power virtually exhausted. They'll yell again shortly.

But we must keep boring in. Chuckling them in the solar plexus. Put them out.

The boys over there will do it if we back them up; keep them in trim. We can do this only in one way. By buying Liberty Bonds.

It is said that a boat with five fishermen went out sailing from Orr's Island, Me., for herring recently and received \$500 for their day's work, sharing \$100 each.

GRIFFITH WAS SOURCE OF UNENDING INTEREST

To the Soldiers Over There When He Was Producing Great Picture to be Shown at Washington Next Week.

The great motion picture director, David Wark Griffith, who was commissioned by the English government to secure views of the world's war for preservation in the British archives, proved a source of unending interest to the soldiers stationed on the battlefields of France where Griffith operated for some eighteen months.

In many instances the intrepid producer had his camera stationed directly on the firing line and was a better part of the time in the first line trenches, at one time being directly in the line of a bombardment by the Germans. The soldiers frequently engaged in gay little burlesque stories back of the lines which were intended to attract the attention of Griffith and it was almost impossible for him to satisfy the demands of the "boys" for a little strip of film bearing their picture as a souvenir to send home to some loved one. Griffith declares that many thousands of feet of film was exhausted in this manner, as it gave him real pleasure to accommodate all the brave fighters it was possible for him to film. The views taken in France have been woven into a splendid production which is called "Hearts of the World," and which is said to excel even his famous "Birth of a Nation." The production will go on view at the Washington Theater next Monday, Tuesday and Wednesday.

ROUNDUP OF MEN WHO FAILED TO REGISTER WILL START AT ONCE

Washington, September 13—A nation wide effort to roundup men who failed to register for the draft yesterday will be started immediately by a specially organized corps of department of justice agents. The corps, it was learned today, has been in process of organization for some time and will work quietly, without making general raids, like those in New York, which caused adverse criticism.

Methods have been developed for gathering information from hundreds of sources on men within the new draft ages who failed to respond and this will be used to prevent evasion. Many volunteer members of the American protective league, citizens' organization are understood to have enlisted in the new campaign against draft dodgers, and the system is said to be so thorough that it virtually will be impossible for slackers to evade arrest.

DAY OF HARD-SURFACE ROADS HAS DAWNED

"I have never been an advocate of hard-surface roads in the country as a beginning," says Governor Arthur Capper of Kansas. "I have thought it wiser to improve properly and maintain consistently the earth roads we have than to attempt the building of a hard-surface-highway which farmers in many cases can not pay for, and which if insisted upon by the promoters creates antagonism to every good-roads enterprise.

"Get a farmer accustomed to driving over a well-maintained earth road and see to it that this earth road connects with the gravel or asphalt road near the town or city and you have at once begun the work of creating a good roads enthusiast. Nothing could induce this farmer to drive in any other direction, because, because he has consideration for his horses or if he uses motor power he very naturally wants the smoothest roads for hauling. One of these days we shall have hard-surface roads in every direction and in every country, just as we now getting concrete or concrete and steel bridges in every county where formerly we had the unsightly wooden bridges. These things are matters of progress.

"What we need to do is to apply to farming some of the things we know, and this is true about roads."

SOMEbody TELL ROOSEVELT

Mr. W. J. Bellomy of Clarksville, this county, will, without doubt, hold the record as the father of the greatest number of boys within the draft age, to-wit 11. The oldest 35 and the youngest 18. Their names and ages follow: J. T. Bellomy, age 38; Tom, age 37; George, age 36; Wallace, age 35; Arthur, 33; Bruce, 32; Grant, 26; Willie, 23; Charlie, 22; Berry, 20; Hazel, 18. Sylvester, who died several years ago, would have been 24. This is a record that will entitle Mr. Bellomy to a front seat in a convention of those opposed to race suicide. But we haven't told it all. Mr. Bellomy is the father of 20 children, 16 by a first marriage and four by a second. We think we are playing safe when we award Mr. Bellomy the honor of furnishing the greatest number of registrants of any person in the United States.—Vanceburg Sun.

MILK!

"Whole milk is the perfect ration—the natural food. It is not merely a drink—it is a food. You eat milk. It nourishes the body, rebuilds and repairs the worn tissues. Most people eat too much. They overload their stomachs. Dairy products are easily assimilated. They give you a higher rate of good value, without taxing the stomach. The family whose meals are largely composed of dairy products are seldom troubled with digestive disorders.

"The food value of a quart of milk is the equivalent of three-fourths of a pound of beef, two pounds of chicken, or eight eggs. Compare costs—milk wins.—Dr. E. V. McCollum, Johns Hopkins University, Baltimore, Md. Pure Pasturized Whole Milk do delivered daily by

PRISON WORKER WILL TALK TO MOTHER

Mother Lehman, Who Has Worked
Among Criminals For 16 Years Is
Now Giving Her Life To Warn-
ing Children and Parents.

Mother Lehman, of Louisville, the
one woman who has come in contact
with more criminals in the state of
Kentucky than any other woman in
the state or probably the South, is
spending a few days in Maysville in
the interest of her life work.

This splendid Christian woman who
during her 16 years of work in the
penal institutions of our state has
taken the confession of hundreds of
criminals and who has talked with
more than 20 who have paid the death
penalty, attributes the most of the
crime of the country to a lack of
Christianity in the homes and to a
lack of care on the part of the par-
ents in bringing their children up in
the church and Sunday Schools.

Already this week Mother Lehman
has spoken in all of the city schools
and many of the county schools. She
has also spoken at several prayer
meeting services and before she
leaves Maysville she hopes to have a
meeting of the mothers of the city.
The exact time of this meeting will
be announced later and every mother
who can possibly get to this meeting
should hear this wonderful woman
who is doing such a great work in
our state.

Men inexperienced in road work
will most likely lose money taking
road contracts, besides making it dou-
bly hard on engineers to get a good
job.

FEDERAL CROP REPORT FOR STATE OF KENTUCKY

Shows That More Hogs Are Being
Fallowed and Crops Are in
Better Condition.

A noticeable feature of the Septem-
ber report of the United States Bu-
reau of Crop Estimates is that the
farmers in Kentucky report they have
on hand 6 per cent. more hogs for
fattening than they had September 1,
1917. The entire United States re-
ports indicate over 8 per cent. more
hogs on-hand for fattening than at
this time last year.

Kentucky's crop prospects are
somewhat better since the general
rains that began in the latter part of
August, but there will still be a great
reduction in the corn, potato, tobacco
and hemp crops compared to those of
1917. The corn crop now promises
about 25 per cent. less than in 1917;
tobacco about 20 per cent. less; and
potatoes about 33 per cent. less. Con-
siderably more oats were produced in
Kentucky this year than in 1917; and
a very fine hay crop, larger than in
1917 it should be remembered that
the 1917 crop was very large. Tobacco
is now growing very rapidly and
unless very early frosts should catch
it in large part of the crop will make
up for much of the drought damage,
though a large part of the crop had
to be cut before the rain could help
it. Other states will more than make
up Kentucky's shortage in tobacco,
however, and a bumper crop is now in
sight. The hemp acreage in Kentucky
this year was less than one half the
1917 acreage and the drought ruined a

large part of this season's small crop,
so that it will be fit only for two. Wis-
consin has a large hemp crop this
year, about the same acreage as Ken-
tucky, that promises to yield well in
fiber, the seed can not be matured
there.

Kentucky's corn crop is now esti-
mated at 89,638,000 bushels compared
to 122,850,000 bushels grown last year.
The United States corn crop is now
estimated at 2,673,348,000 bushels
compared to 3,159,494,000 bushels in
1917.

Oats grown in Kentucky this sea-
son are estimated at 8,167,000 bushels
compared to 8,060,000 last year. The
United States oats crop this year is
about 1,476,930,000 bushels, compared
to 1,587,286,000 bushels in 1917.

Tobacco grown in Kentucky this
year is estimated at 342,884,000
pounds compared to 426,600,000 lbs.
grown in 1917. The United States
crop this season now comprises 1-
217,179,000 pounds compared to 1,196-
451,000 pounds grown last year.

Irish potatoes in Kentucky this sea-
son will produce about 4,520,000 bush-
els compared to 6,720,000 bushels
last year. The United States potato
crop this year is 354,453,000 bushels
compared to 442,536,000 bushels in
1917.

Hay produced in Kentucky this
year is about 1,400,000 tons compared
to 1,194,000 tons last year. The United
States hay crop this year is about
86,300,000 tons compared to 94,930,000
tons last year.

Barley in Kentucky this year pro-
duced about the same as in 1917, 140-
000 bushels. The United States bar-
ley crop is about 235,775,000 bushels
this year compared to 208,975,000 bu-
shels in 1917.

Wool production in Kentucky this
year was about 3 per cent. more than
in 1917, while wool production in the

entire United States was nearly 7 per
cent. greater than in 1917.

Sweet potatoes in Kentucky will
yield about 935,000 bushels this year
compared to 1,140,000 bushels in 1917.
The United States sweet potato crop
is about 80,977,000 bushels compared
to 87,141,000 bushels in 1917.

SHORTEST MAN IN ARMY IS TAILOR, BUT HAS NO COAT

Private J. F. E. Tull Kept as
Masculine For Regiment.

New Orleans, La. — Private John
Golasso of Tulsa, Okla., who is a
tailor by trade, is the only soldier in
Camp Logan, Texas, who has no coat.

This is not intended as a criticism
of the quartermaster department of
the army. How was the quartermas-
ter to know that a man of Golasso's
size would be inducted into the ser-
vice of the army. Golasso, he it known
to those who don't know it, is the
shortest man in stature in the Ameri-
can army. He is four feet eight
inches high.

Golasso was asked how he liked the
army. He replied that it was great,
but he could not keep step with the
men who were so much bigger. He
said that he could walk as fast as the
others, but he cannot take the regula-
tion thirty inch step.

Whenever Midget John, as he is
called, goes to Houston, which is near
Camp Logan, he becomes the center
of attraction. When people see that
he is a real soldier instead of a Boy
Scout, they make exclamations of sur-
prise. The ladies are particularly
fond of him, but he is ladies' man.

Midget John is the only soldier who
may go to town without a coat after
6 p. m. The reason is that the army
officials have recognized the necessity
of giving him special leave to go with-
out one on account of the shortage of
coats to fit him.

While the regulations call for a
man to be at least five feet tall in or-
der to be accepted for service, the of-
ficers of the Fifty-seventh regiment,
to which Golasso belongs, are desirous
of keeping the midget as a mascot
and utilize his services as a tailor
in the regimental tailor shop.

When the alien soldiers in cam-
p recently announced their allegiance
to the foreign kings, emperors, and
potentates, Golasso stood on a chair
to be seen and took the necessary
oaths which made him an American
citizen. He was born in Italy.

LOUISIANA BLACKSMITH PRO- DUCE HALF AN ACRE

St. Benedict, La. — Agricultural pos-
sibilities of "cut over" lands in Louisi-
ana have been once more demon-
strated by Ed Strain, a farmer living
one and a half miles north of St. Benedict,
producing a bale of cotton per acre
on cut over land broken and prepared
in the fall and planted in cotton in the
spring of the same year. The fact
that Mr. Strain is a blacksmith by
trade and has taken to farming only
recently renders the agricultural feat
the more remarkable.

Men should be careful to know that
they are correct before speaking and
writing about roads, also the fruit
of their efforts may not be worth
gathering.

WEAK KIDNEYS MAKE WEAK BODIES

Kidney Diseases Cause Many Aches
and Ills of Maysville People.

As one weak link weakness a chain
so many weak kidneys weaken the
whole body and hasten the final break-
ing-down.

Overwork, strains, colds and other
causes injure the kidneys, and gen-
erally when their activity is lessened
the whole body suffers.

Aches and pains and languor and
urinary ills frequently come, and
there is an ever-increasing gravel or
fatal Bright's disease. When two kid-
neys fail there is no real help for the
sufferer except kidney help.

Doan's Kidney Pills act directly on
the kidneys. Maysville testimony is
proof of their effectiveness.

Mrs. Harry Mann, 495 W. Second
St., says: "About two years ago, I
suffered from an attack of kidney
trouble that had lasted for a long
time. I had a dull, constant ache in
the small of my back and the pains
were often sharp. I was also dizzy
and felt tired and languid. Two boxes
of Doan's Kidney Pills cured me and
I haven't been bothered by kidney
trouble since. I gladly advise anyone
to get a box of Doan's Kidney Pills
at the Chenoweth Drug Co., if trou-
bled by their kidneys."

Maysville people who have gratefully
endorsed Doan's Kidney Pills. If your
back aches—if your kidneys bother
you, don't simply ask for a kidney
remedy—ask distinctly for DOAN'S
KIDNEY PILLS, the same that Mrs.
Mann had—the remedy backed by a
home testimony. 50 cents at all
stores. Foster-Milburn Co., Props.,

TELEPHONE INSTALLATION AND MOVE CHARGE

The Postmaster General directs that
beginning September 1st, 1918, all
Telephone Companies collect a "readi-
ness-to-serve" or installation charge
for all new installations and also
charge for all changes in location of
telephone.

In accordance with these instruc-
tions we will collect in addition to the
regular charge heretofore an amount
of \$5.00, \$10.00 or \$15.00, the amount
depending upon the rate per month of
the class of service contracted for.

The move charge to the subscriber
will be the actual cost of labor and

COMMUNITY CHORUS
PRACTISE TOMORROW

Maysville's Only Musical Organization
Continues to Grow in Popularity
and Size—Practice Tomor-
row Afternoon.

The Mason County Community Chorus, which is made up of many voices from all parts of the county, will practice at the Neptune Hall tomorrow afternoon at 3:30 o'clock and all members who can possibly be present are urged to attend as these practice periods are very necessary if the organization shall grow to the size and importance the managers hope for it.

This is now the only musical organization Mason county has and it is expected that the chorus will be called upon many times in the future to furnish the music for various occasions. The chorus will be used much, it is thought, during the fourth Liberty Loan campaign which opens the latter part of this month and it is necessary that as many members attend the practice as possible.

Maysville and Mason county has had several bands but only one band lasted any time. It seems almost impossible to organize a band in Maysville again but this chorus can be easily organized and can be held together and everyone is now looking to it as the one musical organization of the city and county.

WHO KNOWS LEWIS T. ROBINSON?

A communication has been received from W. E. Moses, prominent attorney of Washington City, asking the whereabouts of Lewis T. Robinson, Union army veteran or his widow. This old soldier is recorded as living in Maysville but, letters mailed to him here have been returned marked "not found." This Washington attorney has a matter in hand that may be of financial interest to Mr. Robinson or his widow and any one knowing their whereabouts will confer a favor on them by phoning this office.

GREAT WAR FUND DRIVE IS SET IN MOTION AT MEET

Kentucky Will Raise \$1,770,000 in Combined Drive of Great Organizations During Week of November 11th

Louisville, Ky., September 14—Hundreds of Kentucky men and women at the Allied War Fund Campaign luncheon at the Seelbach Hotel yesterday pledged themselves to concentrate every energy toward one united campaign for funds for keeping up the morale and caring for the needs of America's soldiers, here and "over there."

For that cause, the seven national organizations have decided upon an allied drive for funds for maintaining the morale of the soldiers, supplying their needs and furnishing comforts to them. Representatives from Kentucky of the Y. M. C. A., and Y. W. C. A., the American Liberty Association, the Young Men's Hebrew Association, the Knights of Columbus, the Salvation Army and the War Camp Community Service met with national workers at a great conference held in the form of a luncheon in the ball room of the Seelbach Hotel at 12:15 o'clock.

Nearly a thousand of the guests were served in the ballroom. Others who could not be seated in the crowded room were given a buffet luncheon, and the remaining were compelled to stand in the hall way without being served at all, so large and unexpected was the crowd which came to the conference.

Led by Sherwood Eddy, who told incidents revealed to him of the life tragedy of France during his recent tour "over there" men and women from all parts of the State answered that they would "carry on" to make things easier for the defenders of France.

The patriotic pocketbook of Kentucky will be put to an acid test of loyalty, the leaders present voicing the confidence that thousands of their co-workers back home would unite in the vast war activity fund drive.

Expressions of confidence in the success of the campaign in the State to raise \$1,770,000 the week of November 11, were greeted with applause which reflected the knowledge of the campaigners that lines of faith will be eliminated in the unity of spirit and endeavor for the morale and comfort of "our boys" as never before in the history of Kentucky.

Judge Edward W. Hines, Kentucky chairman of the allied war drive who presided at the meeting, announced the men and women of the national and the Kentucky executive committee who he said would stand "behind" the campaign. They are as follows:

C. A. Tevelaugh, State campaign director, and the members of the executive committee; William Heyburn, Young Men's Christian Association; Col. P. H. Callahan, National Catholic War Council; Benjamin S. Washer, Jewish Welfare Board; Mrs. Casselberry, Dunkerson, Young Women's Christian Association; Dr. Ben L. Bruner, Salvation Army; Col. Marlon E. Taylor, American Library Association; S. Thurston Ballard, War Camp Community Service.

Let us start the new conference year with every member present. So much depends on our being at the Sunday services. Tomorrow morning the pastor will preach and hold the Communion service. Will you not help us to start the new year well by being in your place—on time?

We want to make this a great year in the history of our church. We can only do this by beginning it well, and increasing through the whole year. And we can not do our best if your place is vacant. Evening service at 7:30. Good music. Bring your friends.

WILL B. CAMPBELL, Pastor.

Third Street M. E. Church.
The church is glad to announce that it will have preaching services tomorrow both morning and evening. Rev. Joseph Gels of Newport will be the preacher for the day. The preacher for the day received his earliest religious training in this church. Many will remember his first efforts at public speaking. Rev. Overley, a former pastor, sends word that Rev. Gels has developed into a fine preacher. There should be large crowds to hear him. There will be some special music at both services. Sunday School at 9:30 a. m., I. M. Lane, Superintendent. The school is getting back in line under the direction of its excellent corps of officers and teachers. Let every member be present tomorrow.

Epworth League at 6:45 p. m. led by Miss Flossie Jones. Some big plans for the League will be put forth at this meeting. Be sure and come.

LEWIS COUNTY MUDDLE IS NOW CLEARED UP

Road Squabble in Lewis County Which Has Kept the County in An Uproar for Several Years Is Calmed by the Decision of Mason County Jury in the Rand Case.

The decision of the jury in the Mason Circuit Court last Friday finding Ed Rand, prominent young Vanceburg contractor, not guilty under an indictment charging him with conspiracy to fraud, will, in a measure, clear up the great road muddle which has kept Lewis county in an uproar for the past five years.

When the State Road proposition was first announced Lewis county was one of the first counties in the state to vote a \$150,000 bond issue for the improvement of the roads. Since the voting of the bonds and the beginning of the road construction the county has been torn up considerably by the cry of fraud.

The matter became an investigation on the part of the state officials and a special report was made covering the whole situation which was printed and spread broad cast over the state. A grand jury in Lewis county then returned indictments against several county officials and against Mr. Rand and it has been in the courts ever since causing considerable interest among the taxpayers of Lewis county.

The case against Rand had two trials here. The first trial resulted in a hung jury with ten members for acquittal and two for conviction. The second trial of the case which ended Friday resulted in an acquittal and it is expected that the Commonwealth will move the court to dismiss the remaining indictment against the County Engineer, Ivan Sanders and the whole road squabble in Lewis county will be brought to an end.

The whole case as tried here rested on a slight change in a contract between Fledging Jones, who was the chief contractor and the Lewis county Fiscal Court. Under the original contract for the re-construction of the Concord Hill road, it would have been necessary to build one large bridge over a creek but the contract was changed so that the route of the pike was changed and two small culverts were constructed instead of the one large bridge. Written in pen and ink on the typewritten contract was a provision that the contractor was to receive the same money for the changed route or the construction of the two small culverts as his would have originally received for the construction of the large bridge.

Ed. Rand was the sub-contractor under Fledging Jones, who had charge of the concreting and it was charged that he changed the contract without the consent of the Fiscal Court. Several members of the Fiscal Court swore that the change was made when they signed the contract and others swore that they did not know whether it had been made when they signed it or not.

As the burden of the proof was on the Commonwealth and they failed to prove the defendant guilty beyond a reasonable doubt, the jury found him not guilty and thus wrote an end to the long equable which has kept our neighbor county torn up for several years.

BRIGHT YOUNG MAN PAYS THE LAST DEBT

Louis Bell Threlkeld, Youngest Son of Mr. and Mrs. James Threlkeld, Died Early This Morning of Appendicitis.

After an illness of little more than a week Louis Bell Threlkeld, youngest son of Mr. and Mrs. James Threlkeld, of West Second street, died at the home of his parents this morning at 2:30 o'clock from an attack of appendicitis.

Young Mr. Threlkeld took ill first a week ago last Thursday. He steadily grew worse until his physicians learned he was suffering from appendicitis. He submitted to the knife on last Wednesday and came from under the operation in a very critical condition.

Louis Bell Threlkeld was 17 years of age on April 19th. He was a Sophomore in the Maysville High School and was universally liked by all who knew him and extremely popular among his classmates. He is survived by his devoted parents, one sister, Miss Lilla Threlkeld, of this city and two brothers, Sergeant James Threlkeld, of Camp Hancock, Ga., and Lieut. Lisle Threlkeld, of Camp Hancock.

Funeral will be held Monday afternoon at two o'clock and burial will be made in the Maysville cemetery.

TWO MEN TO INSPECT MACHINE

The contemplated trip on the Uncle Bob yesterday afternoon was postponed because the members of the Fire Committee of the City Council were too busy with their personal business to attend the inspection. The machine is in first-class condition, however, and has been accepted from the contractors who were thanked for the splendid job they did.

WANTED

100 horses with with influenza to treat while awaiting my call to the U. S. Army. C. LEE CHOLLAR, Veterinarian. Office at Residence. Phone 489-R

Mayor Thomas M. Russell returned Friday night from a trip through the South.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 7c. Hall's Family Pills for constipation.
